

DIVIDE EX. IS A JEWELRY SHOP

Full Face Averages \$930 in the South-Drift 200 Level

UNITY OF MILITARY LEADERS

(By Associated Press)
EL PASO, Dec. 29.—Mexican revolutionists are working on a plan for unity of military command and aims with the first step the setting up of a de facto government, according to well defined reports reaching here. Followers of Francisco Villa said he had been agreed upon as military leader by the revolutionists on the east coast of Mexico and by southern rebels.

Revolutionists, it is said, plan their first military movement on the east coast and other chief aim at present is to obtain control of Mexican all districts.

EXTRADITION OF THE EX-KAISER

(By Associated Press)
PARIS, Dec. 28.—Extradition of former Emperor William of Germany will be demanded from Holland as soon as the peace treaty becomes effective, according to the decision reached by the French and British governments, says Echo de

14 INCHES IN CENTER ASSAYS \$2752 TO TON

Without realizing there could be any improvement in the glowing reports from Divide Ex the bears organized a raid on that stock this morning with the result that the quotation dropped from the high mark of the day at \$249 to \$195 and closed at \$204 on sales of 77,200 shares. There was evidence of professional trading and it is expected that there was short selling to help break the market and send some of last week's shorts to get back again at a lower price.

Mine conditions are such that the prediction is freely made that the property will develop into the largest body of high-grade known in the history of the Divide. The official statement of the company issued this morning presents a spectacular development without a peer in the annals of either Tonopah, the Divide or even Goldfield during the palmy days of the Mohawk when

high-grade showings were encountered in widths of a few inches and whole faces of ore in that famous mine seldom ran over \$100. The statement of the Divide Extension, issued today by R. A. Rivers, secretary of the company, reads as follows:

Development on the south drift of the 200 level to date show that as little as 14 inches of ore in a drift of nine feet, with the vein measuring in width as we advance, a high grade streak in the center of the face assays \$2,752 for fourteen inches in width while the entire face averages \$930.

The total turnover on the San Francisco Stock exchange was \$40,500,000 which included 77,200 Divide Extension, \$2,000,000, 30,000 Belcher Ex. 43,200 Broucher and 35,500 Hasbrouck Divide opened at \$8.50 and sold down to \$4.15, while Hasbrouck opened at 40 with

and any previous intimation of the sudden advance and receded to 31. Dividend dropped from 48 to 37 and brought, which seemed to have greater possibility than the others, advanced from the opening at 47 to 51 and softened off to the opening price. Belcher Ex was a star performer, opening strong at 54 and holding to the general stability, closed at 49. Belcher opened at 35 and closed at 28. Holders of Grimes thought that stock was going to show some speed when it opened at 12, but the anticipation was not realized as it fell back to 9. Ben Hur looked good at 15 on the strength of its work but failed to hold and closed at 14. Thomson was strong with the first sale at 35, but there was no getting away from the unsettled feeling encountered by the assault on Divide Ex and this was held responsible for the Wingfield minor slipping back to 13.

BRYAN SOUNDS CAMPAIGN CRY

(By Associated Press)
OMAHA, Neb., Dec. 29.—William Jennings Bryan will speak here January 12 on the "Attitude of the Democratic Party for 1920." Friends say he plans a tour of several weeks in which he will discuss the league of nations, peace treaty and other possible campaign issues.

MAKERS OF POISON ARE NOW IN JAIL

(By Associated Press)
NEW YORK, Dec. 29.—Three men, a druggist, a liquor dealer and an undertaker, faced charges before the United States commissioner here today in connection with spreading wood alcohol as whiskey through five states in the last ten days, death and blindness following in its wake. Adolph Panarelli, the liquor dealer, said to have confessed to the druggist, is quoted as saying: "I am glad you got me, but for God's sake don't send me to Comstock. I don't want to be lynched."

PEACE LEAGUE TO MEET SOON

(By Associated Press)
PARIS, Dec. 29.—Informal notice of the first meeting of the council of the league of nations probably will be given a day or two after the exchange of ratifications of the peace treaty. Ambassador Wallace cabled the state department in Washington to this effect after this morning's meeting of the supreme council when the question was considered. It still is an open question whether a formal call for the meeting will be issued by President Wilson, as originally provided for, or whether in view of the United States not having ratified the peace treaty, the call will be issued by Clemenceau, president of the peace conference.

OFFICER SLAIN BY OWN MEN

(By Associated Press)
BUREN, Dec. 29.—Lieutenant Roast, officer of the guard who met his death in Sunday night's shooting affray near the vice royal lodge, was "accidentally killed by bullets from his own patrol party," the verdict of the coroner's jury said.

Treaty Compromise Looking Feasible

(By Associated Press)
WASHINGTON, Dec. 29.—Republican and democratic senators working for a peace treaty compromise, centered their attention today on a plan said to have been accepted by mild reservation republicans and by a number of democrats for ratification with three modifications in fourteen reservations approved by the senate majority at the last session. Three changes, which some senators believe would make the reservations acceptable to two-thirds of the senate, deals with premisses and declaration, with Article X and with Shantung. Under the new premise it is suggested that the senate reservation be regarded as accepted by other parties to the treaty unless specific objection be made within a limited time.

ITALY BLAMES TRADE COMBINE FOR FIUME WAR

(By Associated Press)
ROME, Dec. 29.—Anglo-American capitalists are blamed for opposition to Italy's claim to Fiume by General Robilant, speaking in the senate today.

"Anglo-American commerce need ed Fiume as a post of penetration into central Europe, preferring to have it in the hands of a small country rather than under control of a great power," Robilant said.

ELECTION LAWS ARE ATTACKED

(By Associated Press)
ANN ARBOR, Mich., Dec. 29.—Constitutionality of United States election laws was questioned in a blistering attack, indictments against Senator Truman Newberry and the other chief today by Martin Littlejohn, counsel for respondent. The doctrine was forth that a majority of the signs in the indictment do not constitute an offense.

CHILD LABOR IS THE PROBLEM

(By Associated Press)
SAN FRANCISCO, Dec. 29.—The whole problem of Americanization would be met in twenty years if the nation could systematically grapple with the child labor problem and secure proper conditions of birth, education and nutrition, Herbert Hoover told a child welfare luncheon gathering arranged by the Associated Charities here today.

Due to methods adopted by Americans and other relief bodies, the disease and mortality among Belgian children is below pre-war normal in spite of the fact that they went through nearly five years of continuous famine, Hoover said.

NEW GOLD FIND AT WED'S CACHE

Arrowhead has developed another sensation that is causing a thrill throughout the southeastern end of the county where it is said that an enormously rich deposit of high-grade gold with great surface showings has been found. This is reported by the man carrier who arrived last evening from the Duckwater region where a messenger from Twin Springs reported that Arrowhead was emptied yesterday and that not a single automobile or vehicle remained in the camp as they had all been used in a rush of locators to Ned's Cache, about twenty-five miles south of the silver camp. The Cache is an old blackrock camp that has not been used for years. Particulars of the rush are expected in Tonopah tomorrow, as several prominent Tonopah people were visiting Arrowhead Saturday, intending to remain over Sunday.

COAL MEN ARE NOW IN SESSION

(By Associated Press)
CHICAGO, Dec. 29.—Representatives of coal operators of the bituminous fields met here today to discuss the attitude to be adopted toward the findings of the commission appointed by President Wilson to adjust the wages of miners after the settlement of the recent nationwide strike. The operators assert they have not committed themselves as accepting or endorsing any decision the president's commission may reach.

MINE MOVING MOUNTAIN AT BISBEE, ARIZ.

(By Associated Press)
BISBEE, Ariz., Dec. 29.—Mining engineers have solved the historic problem and have literally "moved the mountain to Mahomet." Ten million feet of Sacramento hill, adjoining Bisbee, is being shoveled by steam and carted away by railroad so that the Phelps Dodge corporation can reach 7,000,000 tons of copper ore which is part of the ramifications of the Copper Queen mine.

It is a gigantic project. All the genius of the engineering department of the organization was required to put into effect the leveling of the mountain, the work of which began in 1917. Care had to be used in blasting to prevent damage to property and life in Bisbee and Warren from boulders hurled down the mountain side into the town.

Where to put the earth covering of this mining treasure was another problem. Warren and Bisbee occupy the gulch at the foot of Sacramento hill. It was necessary to build railroad tracks into several spur gulches and because of the narrow width these had to be single tracked. To prevent accident and facilitate continual movement of earth from the steam shovels working at the hill top, a competent railroad train dispatcher and telephone equipment was installed.

The work was begun in the midst of the war, while machinery was hard to obtain and labor difficulties were increased by I. W. W. agitators. Yet in spite of these handicaps, the workmen have leveled the top of the hill and removed a large slice from one side of the mountain.

The steam shovels have not yet reached the rich copper veins of the Copper Queen, but they have come into ore containing one-half to one per cent copper. Some day, perhaps, a means may be discovered to extract this copper at a profit. Experiments have been made in heap leaching of low grade ore, which promise a few cents a ton profit by separating it into piles for leaching by water alone.

In the meantime the steam shovels are keeping steadily at work in the hope that soon these giant instruments may be rivaling the Copper Queen underground miners in the production of copper.

This is said to be the first experiment of its kind in mining and its success may mean a revolution in the industry.

RUSSIA TO OPEN WAR ON POLAND

(By Associated Press)
LONDON, Dec. 29.—Mrs. Gwynne Thompson will be the first woman barrister in the United Kingdom. Her application for admission as a solicitor for the bar having been accepted by the benchers of Lincoln's Inn today.

FIRST GAS MASK MADE BY WOMAN

(By Associated Press)
PITTSBURGH, Dec. 29.—It is claimed that the first gas mask based upon the use of charcoal for the absorption of highly poisonous gases from the atmosphere, the principle which in actual practice was so valuable to the armies in the world war, was made by the late Mrs. J. B. Garner, of Pittsburgh. This statement is made at the Mellon Institute of Research here.

Mrs. Garner, the wife of the director of an important natural gas company here, became interested in the experiments her husband was conducting in connection with the gases which at that time early in 1915, had appeared on the battlefields of Europe. When the principle was once established, the institute declared, Mrs. Garner designed and made a dozen gas masks of the canister type, and in June, 1915, they were handed over to the representatives in America of the British government. They were sent to England, and from this first design other gas masks were made.

When the United States entered the war full details of the experimental work, and all apparatus that had been employed were supplied to the government. Mrs. Garner, whose husband is a fellow of the Mellon Institute of Research, died a year ago.

POISON TRAFFIC PROBE GOES ON

(By Associated Press)
CHICOPEE, Mass., Dec. 28.—Search continued in this vicinity today for persons connected with the traffic in poisonous liquors which resulted in the last few days in at least fifty-nine deaths and many cases of serious illness here and in nearby places. Fourteen arrests of those who handled liquor which was found to contain wood alcohol have been made and other arrests are expected.

GRAND ROUNDUP OF BOOTLEGGERS

(By Associated Press)
NEW YORK, Dec. 29.—One of the biggest round ups of bootleggers and manufacturers of illicit liquor ever made in this country is impending as a result of the wave of death and blindness which has followed the sale of poisoned liquor. Daniel Porter, supervising revenue agent for the New York district, announced today.

CONSTABLE KILLS BOY IN REVOLVER DUEL

(By Associated Press)
MARTINEZ, Dec. 29.—Constable Charles Chapman, who killed Frank Tait, aged 16, Saturday in a revolver duel which followed an attempt to arrest the boy, today was arrested on a murder charge.
